smd mounting

Miniature size

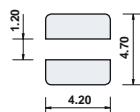

The type CD43 smd inductors provide high inductance and rated d.c. current with very small size. They are high quality components which may be assembled using reflow or wave soldering techniques and supplied packed in bulk or on 12mm tape and reel, 1500 pieces per reel. Maximum rated current is based on a temperature rise of +40°C and a maximum inductance fall to 80% of the original value.
