

## Type CD75 (10 ~ 470) $\mu$ H

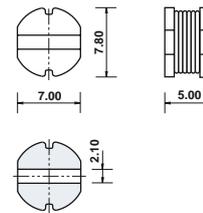

- # Ferrite core
- # High S.R.F.
- # smd mounting
- # Small size

The type CD75 smd inductors provide high inductance and rated d.c. current with small size. They are very high quality components which may be assembled using reflow or wave soldering techniques and supplied packed in bulk or on 12mm tape and reel. Maximum rated current is based on a temp. rise of +40°C and a max. inductance fall to 80% of the original value.
