

## **Total Frequency Control (TFC) REACH Compliance Statement**

TFC is fully aware of and compliant with the EU REACH Regulation (EC 1907/2006). As a Downstream User, TFC only supplies Articles that are compliant with REACH and contain no substances intended to be released. Therefore, pre-registration or registration is not required for our products.

All formulations or substances used in manufacturing these Articles are registered by our upstream suppliers, who confirm compliance with the latest REACH requirements. They have also confirmed that none of the products supplied to TFC contain any Substances of Very High Concern (SVHCs) at or above the 0.1% (w/w) threshold, as listed in the ECHA Candidate List (253 substances as of Feb 4th 2026).

TFC will continue to monitor updates to the Candidate List and inform customers of any relevant changes.
